

ESET NOD32 version 4.0.474.0 detecting as vulnerable for AV-100

Issue:

AV100 is showing as vulnerable for Antivirus not being installed even though ESET NOD32 v 4.0.474.0 is installed on the client

Cause:

This was due to a defect and is resolved with a patch.

Resolution:

LDMS 8.7 SP6

Download and install patch [PAT-4170187.6-2](#)

LDMS 8.8 SP3

Download and install patch [PAT-4170188.3-2](#)
